WHILE "popping the question" to his girl, a young man of Newburyport, Mass., was stricken with heart disease and paralysis and died the next day. This should serve as a solemn warning to the handsome bachelor editor of the Cynthiana Democrat.

MUNICIPAL ELECTRIC PLANTS.

Ten years ago the Legislature of Massachusetts passed a law permitting the purchase or construction of electric lighting plants to be operated under municipal control. Since then eighteen municipal electric plants have been established in as many towns, with population varying from 1,000 to 27,000.

"In regard to these recent municipal enterprises," says the Philadelphia Record, "it has been shown by expert testimony before the Industrial Commission that they have been more profitable than the great majority of private plants in cities and towns of the State. Fourteen public electric plants operated in as many towns yielded net profits of 12.3 per cent., while in forty-three towns served by private electric companies the return on the amount invested was only 6.4 per cent. In order to arrive at this result, the expert investigators credited the town with full commercial value for every light devoted to public service; yet even with this factor eliminated the plants under municipal control showed a considerable excess of profit over those of private companies. This is scarcely surprising, in view of the peculiar conditions of electric service—which inexorably exact perfection in equipment—and of the craze for stock-watering that has rendered so many private companies of this class a prey to rascals of every degree."

Fought for His Life.

"My father and sister both died of consumption," writes J. T. Weatherwax, of Wyandotte, Mich., "and I was saved from the same frightful fate only by Dr. King's New Discovery. An attack of pneumonia left an obstinate cough and very severe lung trouble, which an excellent doctor could not help, but a few months' use of this wonderful medicine made me as well as ever and I gained much in weight." Infallible for coughs, colds and all throat and lung trouble. Guaranteed bottles 50c. and \$1 at J. Jas. Wood & Son's drug store.

Chief Donovan reported that during April the number of arrests made by the police was as follows:

By Ort.....	5
By Newell.....	12
By Thompson.....	12
By Toile.....	15

Mayor Stallcup's report of license collected during the month showed \$143.20.

Permits were granted as follows: The Tiger Shoe Manufacturing Company; to build a coal bin in alley in rear of the factory.

John L. Caldwell; to build a stable on lot on Second street, Sixth ward.

W. B. Mathews & Co.; to erect an addition to west end and south side of the "Frederick carpenter shop" on Commerce street.

Samuel Mundy; to build an addition to his residence on Third street, Sixth ward.

A petition signed by twenty-eight citizens of the Fifth and Sixth wards was presented, asking Council to take some action in regard to the pond east of Union street and south of the C. and O. railroad. They claim this pond is a menace to the health of the neighborhood, as at certain seasons the smell from it is very offensive. The matter was referred to the Board of Health.

The claim of Dr. Shackelford for \$50 for services in smallpox cases in November and December was allowed. The Chairman of the City Board of Health was ordered to not employ any physician or other person hereafter without proper authority.

The saloon license of F. L. Stokes was transferred to C. Schuler, agent for Harry Power.

R. B. Lovel and M. A. O'Hare, elected Supervisors of Tax at the last meeting, tendered their resignations, which were accepted. H. L. Newell, the other member, was also unable to accept, as he will be absent from city the week the Board is to meet. J. H. Rains, F. Devine and J. B. Burgess were then elected as members of said Board.

The Board of Education presented an estimate of its probable receipts and expenses the ensuing year and asked for a levy of 25 cents on the \$100 from the city for school purposes. Outside of the city levy, the probable receipts will be: From State \$3,500, fines \$250, tuition \$150, and county \$4,000; total \$7,900. Probable expenditures: Teachers \$13,000, Janitors \$630, insurance \$150, supplies \$1,000, buildings \$750, taking census \$80, salaries \$350; total \$15,980. The ordinance regulating the construction of sidewalks and pavements, curbing and gutters was adopted by a unanimous vote. It goes into full details and gives property holders the option of using paving brick, freestone or concrete.

An ordinance was introduced ordering

the construction of a pavement on the north side of Second street, from Lower or Schultz to the West End of the city. All property holders are to put the pavements down within thirty days of the adoption and publication of the ordinance, the cost of same to be pro rated according to front foot, this cost to be a lien on the property until paid. The ordinance went over until next meeting.

The rules were suspended and an ordinance adopted regulating the mooring of houseboats on river shore in city limits.

An ordinance regulating the erection of buildings was adopted under a suspension of the rules.

The committee to whom the Public Library question was referred some time ago presented the following report which also embodies the legal opinion of Judge A. M. J. Cochran and City Attorney Wood:

The Maysville and Mason County Library, Historical and Scientific Association owns the real estate on the west side of Sutton street, between Second and Third, this city, and \$14,440.00 subject to the life estate of Mrs. Mary A. Bray, and \$6,500 subject to the life estate of Mrs. Catherine Rice. No use of the personal property can be made during the life of the life tenants. The real estate, in the discretion of the association, can be sold and proceeds invested and held for the purpose of maintaining a public library and historical and scientific society, and on the death of the life tenants the personal property can likewise be so devoted.

The city of Maysville has power to establish, maintain and regulate a local public library and make subscriptions, donations and gifts thereto. It is desired and it is possible to bring these two availabilities into union and to establish one institution. Two methods have been suggested. One is to purchase the convent building and locate and establish the library there. This can be done by the city. But in order to raise the means to do so, the question will have to be submitted to a vote of the people and carried by a two-thirds vote. If this is done, the real estate on Sutton street, owned by the association, can be sold and its books and other movable property removed to the convent building, and the revenue from the proceeds of the real estate, and from the personal estate, on death of life tenants, can be devoted to the maintenance of a public library and historical and scientific association. The Greenwood Library can also be moved there and the revenue derived from the Greenwood Fund likewise devoted. The city can also devote annually a sum of money to the maintenance of a public library in that building.

The other method is to continue the library on Sutton street and for the city to devote a certain sum annually to the maintenance of a public library there. This can be done without submitting the matter to a vote of the people, and the management of the library can be entrusted to such agency under such rules and regulations as the city and management may agree upon. Such sum must be specified in the annual levy. Such, in our opinion, is the legal aspect of this matter and it will have to be disposed of in one or the other of the two ways suggested.

We, your committee, recommend that the purchase of the academy building known as the convent property be submitted to the voters of the city of Maysville.

The report was adopted. It was stated that the convent building could be purchased for \$10,000. The matter went over till next meeting.

Two emergency bonds, each for \$500, were ordered sold to provide funds for current expenses.

The City Assessor's books were reported returned to the City Clerk.

City Clerk Daulton was granted leave of absence for three days.

A car-load of vitrified brick were ordered purchased for crossings.

The committee engaged in revising the city laws and ordinances was authorized to receive bids for printing 100 copies of same, twenty-five copies to be bound in calf and the remainder in board, and report to Council.

The King's Daughters of Episcopal Church were refunded \$3 license paid for an entertainment in April.

The question of improving Lower street, south of Second, was referred to Committee on Internal Improvement and the Mayor, with power to act.

Complaint was made as to the dangerous condition of the old brick buildings on southeast corner of Front and Wall. The matter was placed in hands of the Mayor, who will likely order that they be torn down unless the owners repair them. In their present condition they are liable to tumble down and kill some one.

Free Exhibition

Of sheet steel, malleable and cast iron ranges and cooking stoves, all kinds. The world's best brands. Be sure to see and learn my prices. Money refunded if not as represented. W. F. Power.

He Is a Wonder.

All who see Mr. C. F. Collier, of Cherokee, Iowa, as he is now, cheerful, erect, vigorous, without an ache, could hardly believe he is the same man who, a short time ago, had to sit in a chair, propped up by cushions, suffering intensely from an aching back, in agony if he tried to stoop—all caused by chronic kidney trouble, that no medicine helped until he used Electric Bitters and was wholly cured by three bottles. Positively cures backache, nervousness, loss of appetite, all kidney troubles. Only 50c. at J. Jas. Wood & Son's drug store.

THE CARPET SECTION

Perhaps you'll need a new Carpet this spring. If so you'll surely want to see our display—the largest and best ever offered in this city.

A splendid assortment of new spring patterns in all-wool ingrain, prices ranging from 25c. to 65c. a yard.

Wiltons, tapestries, moquettes, velvets and body Brussels—a line bound to please you.

Our Mattings have just been strengthened by the arrival of 100 bales of new stuff. A magnificent showing ranging from 12c. (cheaper matting represents wasted money) to 50c.

In Carpets, just like other lines of merchandise, the buyer is at the mercy of the seller. Few carpet buyers know carpet values. Qualities are hard to carry in the eye. It's this fact makes us use the greatest care in selling Carpets. If you are a Carpet customer here it is your privilege to know everything about the Carpet you are buying.

We've gone to the depth of things in Carpets and it's our pleasure to protect you as to qualities.
